

DEEKSHA GAUTAM

Software Engineer | AI Integrations, LLM Systems & Enterprise Applications

(+91) 9971077462 | gautamdeeksha7098@gmail.com | LinkedIn | GitHub | Portfolio

SUMMARY

Software Engineer with **4 years of experience** building enterprise applications and AI-integrated systems. Experienced in **LLM integration, model evaluation, hybrid AI architectures, privacy-aware routing, AI guardrails, agentic automation, backend engineering, CI/CD, and production deployment**. Strong foundation in Python, Java, APIs, Kafka, Spring Boot, and enterprise DevOps.

TECHNICAL SKILLS

AI & LLM: LLM Integration, LLM Evaluation, Model Routing & Orchestration, AI Guardrails, Privacy-Aware AI, Prompt Engineering, Ollama, Gemini API, GroqCloud, Gemma 3, GPT-OSS

AI Engineering: RAG, Vector Databases, Agent Frameworks, Agentic Workflows (projects in progress)

Backend & Data: Python, Java, SQL, Spring Boot, REST APIs, Kafka, MongoDB, PySpark, Data Pipelines

DevOps & Engineering: Jenkins, Harness, GitHub, Bitbucket, Maven, SonarQube, OpenShift, CI/CD, Software Architecture, System Integration, Security, Scalability, Production Deployment, Agile/SDLC

AI & SOFTWARE PROJECTS

Hybrid AI Gateway

Python | Ollama | Gemma 3 4B | GPT-OSS 120B | GroqCloud

- Built a **hybrid local-cloud AI gateway** with **privacy-aware model routing, guardrails, output validation, fallback strategies, and operational metrics**.
- Developed a **106-test evaluation suite** covering routing decisions, privacy enforcement, fallback behavior, and live model execution.

Local vs Cloud AI Lab

Python | Ollama | GroqCloud | LLM Evaluation

- Built a **34-request LLM benchmarking framework** evaluating instruction following, structured output, grounded QA, reasoning, latency, and cost.
- GPT-OSS achieved **100% grounded QA and reasoning accuracy** versus **90% and 80%** for local Gemma; measured cloud inference cost at approximately **\$0.00005/request**.

Pet Thought Generator

Python | Streamlit | Gemini API

- Built an **interactive LLM application** integrating Gemini API with structured prompt orchestration, configurable generation behavior, and environment-based secret management.

Mental Health Risk Analytics – Georgia Tech

Python | Pandas | Statsmodels | Scikit-learn

- Built an end-to-end logistic regression pipeline on **9,648 YRBS records**; performed feature engineering, ROC/AUC analysis, threshold optimization, and model diagnostics, achieving **0.725 test AUC**.

PROFESSIONAL EXPERIENCE

Technology Analyst II (C-10)

2023 – Present

Citi

- Architected and implemented an automated **three-level fund discount approval system** for NAM, integrating Citi applications with Salesforce and dynamically routing requests through approval matrices; reduced approval turnaround time by **78%**.
- Built an **AI agent for production change management** that creates production change requests and coordinates documentation across **Confluence, runbooks, and Tenant Ops**, reducing human intervention by **75%**.
- Developed and enhanced a **Kafka-powered Direct Placement Investment platform**, contributing to **47% NAM client growth** and **30% higher activation**.
- Delivered an **AI-enabled document-processing workflow** from architecture and integration through production release, achieving **92% customer satisfaction**.
- Received the **Platinum Award** for engineering delivery and business impact.

Technology Analyst (C-09)

2022 – 2023

Citi

- Developed and maintained approximately **35 TradeLink services** across Alternate Investments and Mutual Funds; independently migrated them to an upgraded **Spring Boot framework**, improving security, maintainability, and code efficiency with no production issues.
- Built an **AI-powered PR security plugin integrated with Devin.ai** that performed repository-wide vulnerability searches whenever a pull request was raised and surfaced remediation options to developers.
- Migrated CI/CD delivery from **Jenkins-RLM/Bitbucket to LSE-Harness/GitHub**, integrating **Maven, SonarQube, and OpenShift**.
- Independently deployed **35 applications across APAC, NAM, and EMEA**, owning release execution, production validation, and post-release support.
- Automated reporting and workflow processes, reducing manual effort by **65%**; received the **Silver Award**.

EDUCATION

MS in Analytics, Georgia Institute of Technology

2025 – 2027 (Expected)

B.Tech in Computer Science, Indira Gandhi Delhi Technical University for Women

2018 – 2022
